Each square is a minute: the row's number is the tens, the column's the ones, so the square for a goal in the 43rd minute is row 4, column 3. First-half stoppage time counts as the 45th minute, second-half stoppage time runs on (90+3' is 93). No goals? 00 wins. Play each goal, or just the 1st and last goal: each goal already includes them.
